

1. To whom was the information presented?

- I gave one copy to a person who is responsible for Social Justice for a large group of persons. One focus is trafficking. Time will tell what she does with it. Sometimes, it takes a while to reach the right people who are interested and have time and energy!

- I will send the info to many other people (networks that I have built through the years).

- I will give a copy to another one this summer so that she, in turn, can spread the information.

(I gave information - sessions, talks, presentations - about trafficking to quite a number of groups since I am working for this cause.)

2. What were some of the results?

- One good result is that it is new material. It is in a way, i.e. we have been working against trafficking for about 10 years now in 8 different countries and have had kits from UISG - that was the first one. (I also have heard in person Sr. Eugenia Bonetti at UI). Other kits were introduced at UNANIMA International, Canadian CRC, CATHII; we also have good texts on trafficking, booklets for small groups and for parishes committees, etc.

- For the specific results of your Packet, we will have to wait. As soon as I hear from people I will let you know.

3. Were any of the participants inspired to take additional action?

- People are always happy to see something a bit different, a new outlook, etc. We are in a world where things change fast and to keep people interested, we need new "stuff".
