

Bette Ann Jaster, OP  
Dominican Sisters of Hope

Croton-on-Hudson

The Dominican Sisters of Hope had two Living Room type dialogues with the Trafficking DVD. The first was following another meeting, 8 of us sisters and associate stayed to watch and discuss the film, share the resource material and explore the issue.

Following that, three of us agreed to offer the same opportunity to our lay staff here, which we did and had 23 people, men and women, attend, followed by lively question, comments and conversation. We also shared the materials. This group is asking for follow-up. Two who couldn't attend got the DVD to watch and the printed materials and another intends to take the process to her parish.

We have made the info available to our sisters and associates and one group requested it up in Cape Cod and another in New Jersey for use in her parish. An Associate got her own copy and will do a similar workshop on the eastern end of Long Island.

So far we have concentrated on getting the content out and asking people to explore the fact sheets and consider action steps. We will follow-up to see what is emerging. Thank you for this great resource kit.
